

FOLDER GLUER OPERATOR

2ND SHIFT

The gluer operator must have solid working knowledge of the complete automated process of folding gluing and a firm understanding of the overall printing and converting processes. The operator must understand how to identify quality related issues and when and how to segregate non-conforming material with material that meets/exceeds customer standards.

Requirements:

- Direct gluing experience (preferably Bobst Expert, Media, Domino)
- In-depth knowledge of the mechanics and capabilities of finishing equipment
- Strong Mechanical aptitude/skills
- Requires experience running, troubleshooting and quality
- Ability to work under minimal supervision, understand technical written (and verbal) instructions, set-up/make-ready the gluer and carry out job bag instructions
- Strong computer skills required
- Basic math skills required
- Ability to accurately distinguish color variation
- Must be able to work other shifts if needed and perform overtime work as needed
- Ability to communicate and direct packers
- Good Verbal and written communication skills
